Municipal Solid Waste (MSW) Equipment

At Indore Petrocon Industries, we offer a comprehensive range of reliable and efficient MSW handling equipment, designed to support sustainable urban waste management. Our solutions are widely used by municipalities, waste processors, and infrastructure developers.

Key Product Categories:

- 1. Bio-Mining Plants** – Trommel Screens, Ballistic & Vibrating Separators, Air Density Separators.
- 2. Fresh Waste Treatment Plant** - Sorting Stations, Conveyors, Trommels, Destoning Section
- 3. MRF Equipment** – Conveyor Belts, Sorting Stations, Balers, Trommels, Wind Shifters
- 4. Shredders** – Municipal Waste Shredders, Coconut Shredder, RDF Shredder.
- 5. Composting Units** – In-vessel Systems, Organic Waste Converters

Available in Custom Built Capacity for performance and durability, our MSW solutions help streamline waste processing and promote a cleaner, greener future.

Conveyor Systems

Versatile. Mobile. Efficient.

Indore Petrocon Industries provides high-performance Conveyor Systems designed to optimize material handling—from truck loading to warehouse stacking. Engineered for mobility and customization, our solutions adapt to a wide range of industrial needs.

Key Offerings:

- Table Belt Conveyor
- Stackers & Container Loading Conveyor
- Butterfly & Telescopic Belt Conveyor
- Gravity & Power Roller Conveyor
- Trough Belt, Screw Conveyor, Bucket Elevator
- Custom Designs Available

Features:

- Leak-proof, rust-resistant designs
- Epoxy/PU coatings
- Hydrostatic & level testing
- Automation-ready with safety compliance

Our conveyors combine strength, precision, and flexibility—built to perform in demanding environments.

Petroleum Storage & Process Equipment

Indore Petrocon Industries delivers safe, high-quality storage and processing solutions for hazardous and sensitive liquids. All products comply with Indian and international standards, including API and PESO guidelines.

Key Offerings:

- **Storage Tanks:** For diesel, petrol, acids, solvents, oils (MS/SS options)
- **Air Receiver & Mixing Tanks:** Jacketed, SS 304/316, agitator vessels
- **Pressure Vessels & Chemical Reactors:** Limpet & jacketed types
- **Automation Systems, Pipeline & Heavy Fabrication**
- **PESO Consultancy Services**

Features:

- Leak-proof, rust-resistant designs
- Epoxy/PU coatings
- Hydrostatic & level testing
- Automation-ready with safety compliance

Ideal for fuel stations, oil depots, and industrial plants, our systems ensure durability, safety, and performance.
